EDUCATION

ShanghaiTech University [web] **Shanghai, CN**
B.ENG. in Computer Science and Technology *Sep. 2023 - Current*

- GPA: 3.84/4.0 — Major GPA: 4.0/4.0
- Rank (CS): 10/170 — Rank (CS + EE): 16/265

Grenoble INP [web] **Grenoble, FR**
Signal Image Processing Methods and Applications *Jan. 2026 - Jun. 2026*

INTERNSHIPS

miHoYo (Hoyoverse) [web] *Jul. 2026 - Current*
AI Engineer Intern

- Built **LLM pipelines** for warehouse and shop-revenue reconciliation and sales analytics
- Developed **social sentiment early-warning** and **KOL** benchmarking for sponsorship decisions
- Produced **per-version competitor analyses** and **social-media campaign insights** to guide strategy

Shanghai Azimuth Data Technology Co., Ltd. [web] *Jul. 2025 - Sep. 2025*
Software Engineer Intern

- Developed a **multi-COM** GNSS client that concurrently parses **NMEA 0183** and **RTCM 3.3** streams
- Built a **LAN-based** simulator client to both ingest and transmit messages

INDUSTRY COLLABORATIONS

Lynred [web] *May 2026 - Jun. 2026*
Data Challenge 2026

- Detect and correct **vertical stripe defects** in 16-bit infrared image sequences across sensors
- Achieved the **top one** performance among all competing groups

AMD [web] *Sep. 2025 - Nov. 2025*
Open Hardware 2025

- Developed **HeteroOCR**, an CPU/GPU/NPU-optimized OCR system for complex documents
- Showcased at **CIIE 2025** as AMD's flagship NPU-AI demo

RESEARCH EXPERIENCE

Post-Moore Microelectronics and Integrated Circuit Center (PMICC) [web] *Jul. 2025 - Current*
Research Assistant, advised by Dr. Yajun Ha

- Developing a **high-throughput Chinese OCR** pipeline for heterogeneous case files
  - Layout, Detection, Recognition; Watermark Removal; Acceleration

COURSE PROJECTS

Network on acoustic link [code] *Sep. 2025 - Dec. 2025*
Team Leader

A **Go**-based acoustic communication system

- Physical, MAC, Network, Transport, Application layers

Oat Compiler [opt] [type-check] *Sep. 2025 - Dec. 2025*
Team Leader

A simple **compiler** written in **OCaml**

- Lexing, Parsing → LLVM → Assembly, with Type Checking, Optimization

Pintos [code] *Mar. 2025 - Jun. 2025*
Team Leader

A simple **operating system** framework

- Threads, User Program + Syscalls, Virtual Memory and File System

Plants vs. Zombies [code] *May 2024 - Jun. 2024*
Personal Project

A PvZ game based on **C++** with **CMake**

AWARDS & HONORS

- **AMD Open Hardware 2025 Competition** [web]: HeteroOCR
- **136 Hours Volunteer Service**, China Volunteer Service
- **3+1 Overseas Exchange Program Scholarship**, ShanghaiTech University

TECHNICAL STRENGTHS

Programming Languages	Go, C&C++, Ocaml, Python, Matlab, RISC-V, X86lite
Framework & Toolchain	Git, Linux, Docker, Conda, Vim, GNU Make, CMake
Misc	LaTeX, Markdown, Pi, DSH, CC-Switch
