EDUCATION

ShanghaiTech University [web] <i>B.ENG. in Computer Science and Technology</i> - GPA: 3.84/4.0 — Major GPA: 4.0/4.0 - Rank (CS): 10/171 — Rank (CS + EE): 16/266	Shanghai, CN <i>Sep. 2023 - Current</i>
Grenoble INP [web] <i>Signal Image Processing Methods and Applications</i>	Grenoble, FR <i>Jan. 2026 - Jun. 2026</i>

INTERNSHIP

miHoYo [web] <i>AI Product Engineer Intern</i> - Architected AI workflows processing unstructured social data for sentiment and KOL insights - Slashed turnaround for strategic pitches and post-mortem impact assessments by 42%	<i>Jul. 2026 - Current</i>
Lynred [web] <i>R&D Software Engineer Intern</i> - Detect and correct vertical stripe defects in 16-bit infrared image sequences across sensors - Achieved the top one performance among all competing groups	<i>May 2026 - Jun. 2026</i>
AMD [web] <i>AI Software Engineer Intern</i> - Developed HeteroOCR, an CPU/GPU/NPU-optimized OCR system for complex documents - Showcased at CIIE 2025 as AMD's flagship NPU-AI demo	<i>Sep. 2025 - Jan. 2026</i>
Shanghai Azimuth Data Technology Co., Ltd. [web] <i>Software Engineer Intern</i> - Developed a multi-COM GNSS client that concurrently parses NMEA 0183 and RTCM 3.3 streams - Built a LAN-based simulator client to both ingest and transmit messages	<i>Jul. 2025 - Sep. 2025</i>

RESEARCH EXPERIENCE

Post-Moore Microelectronics and Integrated Circuit Center (PMICC) [web] <i>Research Assistant, advised by Dr. Yajun Ha</i> - Developing a high-throughput Chinese OCR pipeline for heterogeneous case files - Layout, Detection, Recognition; Watermark Removal; Acceleration	<i>Jul. 2025 - Current</i>
---	----------------------------

COURSE PROJECTS

Network on acoustic link [code] <i>Team Leader</i> A Go-based acoustic communication system Physical, MAC, Network, Transport, Application layers	<i>Sep. 2025 - Dec. 2025</i>
Oat Compiler [opt] [type-check] <i>Team Leader</i> A simple compiler written in OCaml Lexing, Parsing → LLVM → Assembly, with Type Checking, Optimization	<i>Sep. 2025 - Dec. 2025</i>
Pintos [code] <i>Team Leader</i> A simple operating system framework Threads, User Program + Syscalls, Virtual Memory and File System	<i>Mar. 2025 - Jun. 2025</i>
Plants vs. Zombies [code] <i>Personal Project</i> A PvZ game based on C++ with CMake	<i>May 2024 - Jun. 2024</i>

AWARDS & HONORS

- AMD Open Hardware 2025 Competition [web]: HeteroOCR
- 136 Hours Volunteer Service, China Volunteer Service
- 3+1 Overseas Exchange Program Scholarship, ShanghaiTech University
- Outstanding Student, ShanghaiTech University

TECHNICAL STRENGTHS

Programming Languages	Go, C&C++, Ocaml, Python, Matlab, RISC-V, X86lite
Framework & Toolchain	Git, Linux, Docker, Conda, Vim, GNU Make, CMake
Misc	LaTeX, Markdown, Marp
